May 10 - May 23

If you were born May 10 - May 23 you were born under the star of Vesta, this means you are a combination of Aries & Taurus, what an interesting combination!

If you were born under the star of Vesta, you carry the energy of the sacred keeper. You are the person who instinctively know how to hold things together when everyone else is emotionally reenacting a shipwreck. There is something steady about you, even when your life is chaotic. Others naturally lean on you Vesta, people look to you for guidance, protection, warmth, and stability because you carry an ancient “builder of order” energy deep within you.

Vesta, you are usually hardworking, observant, and deeply responsible. Even as a child, you seem older than your age, you are like a tiny exhausted accountant trapped inside a human body. You notice what needs fixing before anyone else does. You are the one that remembers appointments, managing crises, holds families together, and somehow locate the missing document nobody else can find. Your strength comes from endurance and consistency rather than loud displays of power.

Emotionally, Vesta, you tend to guard themselves carefully. You feel deeply, but you do not always trust others with those feelings immediately. There is often a strong inner fire beneath the calm exterior. Once someone earns your trust, however you becomes fiercely loyal and protective. You love through action more than words and show how much you care by helping, organizing, supporting, and creating safety for the people you value.

Spiritually, Vesta, you are connected to purification, devotion, sacred duty, and inner discipline. This often makes you feel driven toward meaningful work or a larger purpose in life. You do not usually thrive in shallow environments. Even when you try to live casually, life tends to keep handing you situations that require maturity, resilience, and leadership. Your soul grows through learning how to balance responsibility with personal joy instead of becoming consumed by obligation.

At your highest expression, you become a stabilizers for others. You are calm during crisis. Wise through experience. Grounded without becoming rigid, and you often build lasting legacies because you understand that true power is not always loud. Sometimes it looks like the person quietly tending the fire while everyone else forgets the fire exists at all.

Date of birth: April 14- April 27

(0.00 degrees ARIES - 13.20 degrees ARIES)

Dioscuri

Dioscuri, you enter this cycle like a racehorse finally being let out of the gate after standing still for far too long. Energy returns quickly now. Motivation rises. Life becomes exciting again. There is movement, spontaneity, and opportunity swirling around you during this period, and honestly, you are thriving in it.

This cycle favors adventure, travel, socializing, creativity, romance, and personal freedom. Dioscuri, you may suddenly feel more confident, outgoing, and willing to pursue experiences that bring genuine happiness. Fun stops feeling irresponsible and starts feeling necessary. There is excellent energy here for meeting new people, trying new things, taking short trips, or saying yes to opportunities that would normally feel “too random” to trust.

Emotionally, Dioscuri, you become lighter, worries lose some of their weight and laughter comes easier. Relationships improve through honesty, humor, and shared experiences rather than endless over-analysis. Romantic energy feels playful and exciting now. Even financially, gains may come through social connections, fast opportunities, or bold decisions made with instinct instead of fear.

The greatest enjoyment for you Dioscuri, is momentum itself. Life begins moving again after emotional stagnation. 2. Hades (Hay-Deez)

Date of birth: April 28- May 11

(13.20 degrees Aries - 26.40 degrees Aries)

Hades

Hades, you enter this cycle like the quiet powerhouse in the corner who says very little but somehow controls the entire room energetically. Fortune surrounds you now through resilience, wisdom, strategy, and karmic timing. Situations that once felt blocked begin shifting unexpectedly in their favor. The universe is rewarding endurance now, especially for battles that you have fought privately while pretending everything was “fine.”

Financial good fortune is especially strong during this period. Opportunities may emerge through career advancement, hidden resources, investments, inheritances, business decisions, or powerful connections. Hades, you thrive when able to think several steps ahead, and now those instincts become incredibly profitable. Others may underestimate you during this cycle, which honestly works beautifully in their favor.

Emotionally, there is also healing. Hades, you often carry emotional armor thicker than medieval castle walls, but this cycle softens things to a gentle edge. Relationships improve through trust and honesty. Loyal people step closer, toxic or manipulative dynamics lose power. There is less emotional exhaustion now and more stability, comfort, and meaningful connection.

The greatest fortune coming to you at this time is empowerment. This cycle reminds them that your strength was never meant solely for survival. It was meant to build something lasting. This good fortune arrives not as chaos or luck, but as an earned reward finally finding its rightful owner.

3. Vesta (Vest-A)

Date of birth: May 12 - May 24

(26.40 degrees Aries - 10.00 degrees Taurus)

Vesta

Vesta walks into this cycle like the person who somehow always smells faintly of cedarwood, has excellent timing, and knows exactly where the missing charger is. Vesta, people are drawn to your energy right now because there is warmth around them, but not the loud attention-seeking kind. More like the campfire everyone drifts toward without realizing it. Doors open quietly. Problems untangle themselves in oddly elegant ways. Even the universe seems less interested in fighting and more interested in handing over rewards wrapped in brown paper and cosmic coincidence.

This is the kind of helpful energy that helps you rebuild confidence without theatrics. You may suddenly feel more grounded in your decisions, less likely to spiral over tiny details, and more willing to trust your instincts. Financially and emotionally, things begin stabilizing like a table finally finding all four legs again. Someone may offer support, advice, or an opportunity exactly when needed. It feels less like luck and more like karmic back pay finally arriving after months of spiritual paperwork.

Relationships soften during this cycle. Vesta, you become easier to approach, even if others usually see you as intimidating with that “I already handled it” aura. Family matters improve. Friendships become more genuine. Romantic energy feels comforting rather than chaotic. There is less chasing, less confusion, and far fewer conversations that feel like emotional escape rooms. The people who belong around you start showing up consistently instead of appearing like mysterious woodland imps who only text at 2:11 AM.

Most importantly, Vesta, you begin remembering your own value again. This cycle restores energy that has been drained by stress, overwork, or carrying too much responsibility for others. Beneficial periods for Vesta are rarely flashy. They are steady, real brick-by-brick improvements, you know, the kind that last. By the end of this cycle you may realize you are no longer surviving life, you are building one.

4. Pasiphae (Pass-If-Phay)

Date of birth: May 25-June 7

(10.00 degrees Taurus - 23.20 Taurus)

Pasiphae

Pasiphae, you enter this cycle like the person who casually says “I had a feeling about this” right before predicting something with terrifying accuracy. Prosperity will follow you now, but not always in obvious ways. Sometimes it arrives as money. Sometimes as opportunity. Sometimes as the sudden realization that wasting energy on nonsense is spiritually expensive. Either way, Pasiphae, you begin attracting situations that feel richer, steadier, and far more aligned with your long-term future.

This is an excellent cycle for financial improvement and personal growth. Unexpected opportunities may appear through conversations, networking, creative projects, or ideas that initially seem too simple to matter. Pasiphae, you thrive when intuition and practicality work together, and during this period those two forces finally stop arguing in the cosmic group chat. Investments in the self become especially rewarding now. Education, business ideas, healing, beauty, and creative work all carry strong abundant energy.

Relationships also become more nourishing. Pasiphae, you start valuing quality over quantity, and strangely enough, this makes you even more magnetic. People are drawn toward your calm confidence and emotional depth. Romantic connections feel warmer and more stable. Friendships become supportive rather than draining. Even family matters may improve through honest conversations and clearer boundaries. Pasiphae, this is not just a financial boost, it is energetic. The peace you gain becomes valuable currency.

By the end of this cycle you may realize they are no longer begging life for scraps of fulfillment. You are learning how to build lasting abundance from instinct, intelligence, and self-worth. The universe rewards you now for trusting your inner compass instead of shrinking yourself to fit smaller rooms.

5. Prometheus (Pro-Me-Thee-Us)

Date of birth: June 8 - June 21

(23.20 degrees Taurus - 6.40 Gemini)

Prometheus

Prometheus, you enter this cycle like a person trying to carry twelve grocery bags, answer three text messages, solve everyone's emotional problems, and still somehow remember where you parked. The universe slows things down now, not to punish you, but to force better structure. Obstacles appear where energy has been scattered, rushed, or overextended. Tiny delays become loud teachers, plans wobble and technology develops a personal vendetta. Even coffee may betray you by going cold exactly three seconds after being poured.

This period challenges you, Prometheus, so you will stop treating exhaustion like a personality trait. Work may feel heavier than usual and responsibilities stack quickly. Miscommunication becomes irritatingly common, especially with people who speak confidently despite clearly understanding absolutely nothing. Patience becomes the real assignment here. The harder you try to force progress through sheer willpower, the more life responds with metaphorical speed bumps made of cosmic cement.

Relationships may also feel strained during this cycle. Prometheus, you tend to carry burdens silently until they eventually resemble a Victorian ghost wandering candlelit hallways muttering, "I'm fine." But now emotions demand acknowledgment. Certain friendships or partnerships may reveal imbalance and some people take far more than they give. Others may suddenly become distant, confusing, or difficult to read. The lesson here is learning where to stop over-functioning for everyone else.

Yet beneath the frustration, this cycle quietly sharpens you into something stronger and wiser. Obstacles reveal weak foundations before larger collapse can occur. By the end of this cycle you may realize that slowing down was not failure, it was survival. The universe is teaching you how to conserve energy for what truly matters instead of setting yourself on fire just to keep everyone else warm.

6. Typhon (Tie-Fon)

Date of birth: June 22 - July 5

(6.40 degrees Gemini - 20.00 degrees Gemini)

Typhon

Typhon, you enter this cycle like the person who survives absolute chaos, fixes the disaster, and somehow leaves looking cooler than when it started. Your good juju arrives through transformation now. Not gentle transformation either. More the “rip the wallpaper down and discover hidden treasure in the walls” variety. Typhon, you thrive when life demands reinvention, and during this cycle, situations that once looked like setbacks begin revealing unexpected rewards.

Financial and personal gains may emerge through bold decisions, strategic risks, or finally letting go of what has been draining energy for too long. Typhon, you often carry intense survival instincts, and now those instincts sharpen beautifully. They become excellent at spotting opportunity where others only see confusion. Someone may offer support, resources, or access to something previously out of reach. The key is trusting intuition instead of second-guessing every move like a detective investigating their own happiness.

Relationships also shift in in your favor. Your confidence becomes magnetic during this cycle. People notice the strength beneath the intensity. Connections grow stronger through honesty and emotional depth rather than superficial performance. Typhon, you may also finally stop chasing validation from people who treat communication like a scavenger hunt designed by emotionally unavailable pirates.

The greatest gift of this period is personal power. You finally begin understanding that you are no longer trapped inside old versions of yourself. Fear loosens its grip, momentum returns and by the end of this cycle, you may feel stronger and wealthier in spirit, and far more capable of building the life you actually want instead of merely surviving the one that you inherited.

7. Artemis (Art-Ta-Mis)

Date of birth: July 6- July 19

(20.00 degrees Gemini - 3.20 Cancer)

Artemis

Artemis, you enters this cycle like the person calmly walking away from an explosion while everyone else is still arguing about who lit the match. This is not soft energy, it is cleansing energy. Necessary endings begin arriving now, especially in areas where you have tolerated disrespect, stagnation, or situations held together with emotional duct tape and denial.

It is destruction through truth. Illusions crack open, weak foundations collapse and plans that were never truly aligned may suddenly unravel despite every attempt to save them. At first, this can feel frustrating or even unfair. But, Artemis, you are being pushed toward liberation, not punishment. This cycle strips away distractions so something stronger can eventually emerge. Think less “ruin” and more “forest fire making room for new growth.”

Relationships may undergo major shifts. You are becomes less willing to shrink yourself for people who only appreciate you when convenient. Old emotional patterns surface clearly now. Some connections deepen through honesty, while others dissolve because they were surviving purely on habit and vague promises. The emotional clutter gets hauled to the curb during this cycle like cosmic spring cleaning performed by a very determined storm goddess.

By the end of this transit, you may realize the destruction was sacred and necessary. The universe is removing what no longer belongs so you so you can stop wasting life force on dead ends. Some things must fall apart because they were blocking the future trying to arrive.

8. Zeus (Zoos)

Date of birth: July 20 - August 2

(3.20 degrees Cancer - 16.40 Cancer)

Zeus

Zeus, you enter this cycle like the person who somehow commands a room simply by walking into it holding an iced coffee and a slightly judgmental eyebrow raise. Success surrounds you now through confidence, authority, leadership, and visibility. The universe is practically placing a spotlight overhead and whispering, "Please stop pretending you are not capable of bigger things."

Career and public recognition receive powerful momentum during this period. Opportunities appear that place you in a position of influence, responsibility, or leadership. Others naturally look toward you for direction because there is a stabilizing force in your energy right now. Projects move forward faster and delays begin clearing. Financial improvement is also strongly favored, especially through strategic planning and long-term decisions instead of impulsive "this feels fun" spending adventures.

Relationships improve when you allow softness alongside strength. Success does not require emotional isolation, despite what your survival instincts occasionally suggest at 2 AM while overthinking every conversation from the last six years. This cycle helps you recognize who genuinely supports your growth and who only applauds when things are easy. Loyal people reveal themselves clearly now.

The greatest success of this transit is internal. You begin trusting your own power without constantly needing proof from external validation. Confidence stabilizes and directions sharpen. By the end of this cycle, you may realize you are no longer asking permission to take up space in life. You are simply stepping into the role you were always meant to occupy.

9. Hydra (Hi-Drah)

Date of birth: (August 3 - August 16)

(16.40 degrees Cancer - 30.00 degrees Cancer)

Hydra

Hydra, you enter this cycle like the final battle nobody prepared for emotionally. Old versions of life begin collapsing now, especially the parts built around avoidance, denial, or emotional survival tactics that once worked but now resemble expired milk in the soul's refrigerator. This is a period of endings, severing ties, and deep transformation. Hydra, you cannot carry the same skin into the next chapter.

This may look like destruction as it arrives through exposure. Truth surfaces abruptly and hidden tensions rise. Situations that have been quietly rotting beneath the surface may suddenly split open all at once. Relationships built on manipulation, dependency, or illusion become especially unstable. Hydra, you may feel emotionally overwhelmed at times, like life keeps tossing dramatic plot twists into the script without consulting the writers' room first.

Financially or professionally, there may be sudden restructuring. Plans change, directions shift and certain goals lose meaning entirely. Yet these endings are not random cruelty. Hydra, you are being stripped of what no longer aligns with your future. This cycle destroys weakness in order to reveal strength underneath. The process may feel brutal, but it is deeply transformative.

By the end of this transit you may barely recognize the person you were before it began. Some things must die so something more honest can survive. The destruction here is sacred, even when messy. Especially when messy.

10. Persephone (Per-Sef-O-Nee)

Date of birth: August 17 - August 29

(0.00 degrees Leo - 13.20 degrees Leo)

Persephone

Persephone, you enter this cycle like the friend who mysteriously disappeared for emotional hibernation and then reappears glowing, overdressed, and somehow holding tickets to something fabulous. Life softens for you now. There is more beauty, pleasure, laughter, and emotional warmth flowing into daily life. After periods of heaviness, this cycle feels like finally opening the windows in a long-closed room and realizing the world still smells like spring.

Your gifts arrive through relationships, creativity, comfort, and emotional connection. Persephone, this may feel more social, flirtatious, artistic, or inspired than usual. Romantic energy becomes especially sweet now. Existing relationships grow gentler and more affectionate, while new connections feel exciting without immediately triggering emotional detective work at 1:17 AM. Conversations flow naturally and invitations appear unexpectedly. Even ordinary moments carry a strange glow around them.

Financially and personally, this is a wonderful period for treating yourself without guilt. You often carry deep emotional intensity, but this cycle reminds you that joy is not selfish. Beautiful experiences become healing now. Good food, music, decorating, travel, nature, art, and time with trusted people all recharge your spirit. The soul is asking for pleasure instead of permanent survival mode.

By the end of this cycle, Persephone born may feel emotionally lighter and more connected to life again. Enjoyment becomes medicine, not escapism, but genuine nourishment. The universe is reminding you that softness can also be sacred.

11. Bacchus (Ba-Cus)

Date of birth: August 30 - September 13

(13.20 degrees Leo - 26.40 Leo)

Bacchus

Bacchus, you enter this cycle like the charming wildcard at a dinner party who somehow leaves with three new friends, a business opportunity, and an invitation to somewhere suspiciously glamorous. Fortune is following you now through charisma, timing, social connection, and bold instinct. Life begins responding more generously when you lean into authenticity instead of trying to manage every outcome like a stressed event coordinator for the universe.

This is a powerful cycle for abundance, pleasure, recognition, and emotional fulfillment. Bacchus, you thrive when life feels alive, and during this period there is more color, movement, and possibility surrounding you. Your energy becomes magnetic in a strangely effortless way. Conversations flow easier. Invitations appear and connections strengthen. Partnerships improve and misunderstandings clear up. There is a strong chance for reconciliation energy here, especially where pride or stubbornness created distance. The greatest gift of this period is emotional alignment. Hymenaeus, you begin recognizing who genuinely supports you and who only appears during moments of convenience. The heart becomes clearer and intuition sharpens. There is less tolerance for performative affection and more appreciation for sincerity. By the end of this cycle, you may feel emotionally lighter, socially brighter, and strangely optimistic again, like someone finally opened the windows in a house that had been closed all winter.

13. Sol (soul)

Date of birth: September 27 - October 13

(10.00 degrees Virgo - 23.20 degrees Virgo)

Sol

Sol, you enter this cycle with the energy of someone who accidentally becomes the center of attention while simply trying to buy coffee. Visibility increases now. Recognition grows and people notice you more easily during this period, and fortunately, the spotlight actually works in your favor instead of turning life into a chaotic reality show hosted by Mercury retrograde.

This cycle strongly favors career, confidence, leadership, and personal achievement. You may receive praise, advancement, new opportunities, or validation that has been delayed for far too long. There is powerful momentum surrounding reputation and public image. Others naturally look to you for direction, insight, or inspiration. The key now is avoiding burnout disguised as ambition. Projects that involve leadership, teaching, performance, promotion, or entrepreneurship receive especially favorable energy now.

Emotionally, this is your time to begin reclaiming joy. The heaviness that lingered around motivation starts lifting. There is more laughter, more momentum, and a stronger sense of direction. 14. Vulcan (Vul-Can)

Date of birth: October 14- October 23

(23.20 degrees Virgo - 6.40 Libra)

Vulcan

Vulcan, you move through this cycle like a blacksmith trying to forge a masterpiece while the universe keeps flickering the lights and hiding the hammer. Progress feels slower than expected. Obstacles arise through pressure, deadlines, authority figures, financial concerns, or the uncomfortable realization that some situations cannot be fixed overnight with determination and snacks.

This period demands discipline. Vulcan, you may feel tested professionally or emotionally. Delays around work, money, projects, or long-term goals can create frustration, especially because you naturally want results now, not seventeen character-building lessons later. However, these obstacles are refining something important. Weak plans break apart. Poor habits become obvious. Unrealistic expectations finally meet reality like two exhausted coworkers trapped in an elevator together.

Emotionally you may struggle with irritability or isolation. There is a tendency now to retreat inward and carry stress privately rather than asking for support. This can create distance in relationships. People may perceive you as distracted, guarded, or overly serious. The truth is simply that your mind is busy trying to hold together fifteen invisible moving parts at once. Rest becomes necessary, not optional. Otherwise the nervous system may begin protesting like an underpaid employee staging a walkout.

Still, obstacles for you are never meaningless. Being born under this star means growing stronger through pressure and refinement. By the end of this cycle you may emerge with clearer priorities, stronger boundaries, and far better understanding of where your energy actually belongs. Iron becomes steel through heat. Vulcan, you are simply in the forge right now.

15. Favonius (Fav-O-Nuss)

Date of birth: October 24 - November 6

The future no longer feels stalled. It feels alive again, moving with momentum instead of resistance, like finally catching the right wind after rowing through emotional soup for months.

16. Dinus (Di-O-Noos)

Date of birth: November 7 - November 19

(20.00 degrees Libra - 3.20 degrees Scorpio)

Dinus

Situations that once seemed stable may suddenly feel fragile, outdated, or emotionally exhausting. Destruction themes emerge around ego, control, routines, and attachments that have quietly overstayed their welcome.

This period may bring abrupt endings, changes in direction, financial restructuring, or emotional confrontations that can no longer be avoided. Dinus, you often prefer strength and composure, but this cycle demands vulnerability and honesty. The universe keeps kicking down doors marked "I'll deal with this later." Unfortunately Dinus, later has arrived carrying a flamethrower and excellent timing.

Career or personal goals may also shift dramatically. Some ambitions lose meaning entirely. Others evolve into something far more authentic. While frustrating in the moment, this cycle is exposing where you have been operating from pressure instead of purpose. Certain responsibilities, friendships, or expectations may collapse simply because they were never sustainable to begin with.

Certain chapters close permanently now. Habits, relationships, identities, and expectations that have lingered beyond their purpose begin unraveling quickly.

Parca, you may experience intense emotional realizations during this period. What once felt stable suddenly feels fragile. People reveal hidden motives. Situations become impossible to ignore. The universe keeps asking one brutal question: "Why are you still carrying what already ended emotionally months ago?" There is grief here, but also liberation. This cycle is making room for destiny to redirect itself.

This cycle may also bring exhaustion around over-responsibility. Parca, you often carry invisible emotional labor for others while pretending everything is manageable. Not anymore. Emotional burnout reaches its expiration date now. The soul wants honesty. Certain connections may end because they were built entirely on imbalance, guilt, or obligation instead of genuine care.

Yet beneath all this destruction lies profound rebirth. By the end of this cycle, you may feel lighter, clearer, and strangely more powerful. Fate is cutting away dead weight. Not to punish them, but to free them. Connections are ending so new ones can finally begin.

Your joy comes through intuition, freedom, emotional depth, and meaningful connection now. Hecate finally begins stepping away from constant emotional vigilance and allowing themselves moments of actual happiness without immediately expecting disaster to arrive wearing clown shoes.

This is an especially powerful cycle for creativity, romance, spirituality, and personal fulfillment. Hecate may feel more inspired artistically and emotionally. Music hits harder, conversations feel richer and intuition sharpens beautifully. There is magic in ordinary moments now, and you notice it more than most. Social interactions become surprisingly healing, especially with people who feel emotionally safe and intellectually stimulating.

Romantic energy is especially vibrant during this period. Hecate, you become magnetic without even trying. Your depth, humor, and mysterious calm attract people naturally. The era of confusing mixed signals and human riddles begins fading into the background.

The greatest enjoyment of this cycle is inner peace. Hecate, you begin trusting life again instead of bracing for impact constantly. Joy feels possible without requiring perfection first. By the end of this transit you may realize happiness was never something you had to earn through suffering. It was always allowed.

20. Ceto (Kay-Toe)

Date of birth: December 29 - January 10

(13.20 degrees Sagittarius - 26.40 Sagittarius)

Ceto

Ceto, you enter this cycle like the mysterious person who quietly predicts the future, disappears into the fog for three days, then returns with excellent advice and suspiciously good instincts about money. This fortunate cycle works subtly around you now. Not loud lottery-ticket energy. More like hidden doors opening at exactly the right moment.

This cycle favors financial growth, intuition, emotional healing, and long-term security. Ceto, you may notice that situations begin aligning more naturally, especially where patience has previously been required. Delays clear, helpful opportunities emerge. There is strong fortune around investments, planning, partnerships, and decisions made from calm wisdom rather than emotional panic disguised as “following vibes.”

Emotionally you become far more centered. The nervous system softens. Anxiety loses some of its grip. Relationships improve because you are no longer tolerating connections that feel emotionally draining or unstable. The people remaining now often bring sincerity, loyalty, and genuine care. Romantic energy feels peaceful rather than chaotic, which honestly may confuse you at first because you are so used to emotional plot twists arriving every seven business minutes.

The greatest fortune here is clarity. Ceto, you finally begins trusting yourself again. Intuition sharpens beautifully during this period, helping you navigate decisions with confidence instead of fear. By the end of this cycle you may feel emotionally wealthier, spiritually steadier, and far more aligned with the future unfolding ahead.
